

INDUSTRIAL WI-FI ACCESS POINT

FEATURES	BENEFITS
<ul style="list-style-type: none"> Manufactured to meet industrial standards 	<ul style="list-style-type: none"> Able to operate in harsh environments (-20 to +70 operating temperature)
<ul style="list-style-type: none"> Compact form factor (102 mm x 61 mm x 40 mm) 	<ul style="list-style-type: none"> Installs in small or confined locations, perfect for mobile solutions
<ul style="list-style-type: none"> External RP-SMA antenna connection 	<ul style="list-style-type: none"> Allows connection to various antennas for maximum performance and range
<ul style="list-style-type: none"> Powerful Operating System (AirOS by Ubiquiti Networks) 	<ul style="list-style-type: none"> Intuitive easy to use OS with a broad range of support
<ul style="list-style-type: none"> 2.4 Ghz 802.11 b/g Radio with a transmit power of 26 dBm 	<ul style="list-style-type: none"> 2.4 Ghz WLAN solution supporting a maximum data rate of 54 Mbps

HOW IT WORKS

- The Industrial Wi-Fi Access Point is connected to a Chameleon CTM-15X Modem.
- The Industrial Wi-Fi Access Point provides internet access to Wi-Fi enabled devices.
- The modem sends information from Wi-Fi enabled devices back to office headquarters (and visa versa) through the internet.
