

WINDSHIELD GATEWAY

BENEFITS

- Enables communication link between the Man Down Pendant and modem
- Allows for better line of sight coverage increasing pendant to gateway range
- Windshield mounting keeps gateway out of the way

FEATURES

- Mounts directly to the inside of the vehicle's windshield in the upper left or right corner
- 15' data/power cable runs down pillar and plugs into modem's DB-9 port
- Adhesive backing for quick and easy mounting

SPECS

- Connects via RS-232 port (DB-9) to DCE modem
- Powered via DB-9 (3.9 V) or externally by a 5-32 Vdc power line
- 95mm x 32.6mm x 28 mm
- 3 LED lights to indicate status/power/data transmit-receive
- Firmware upgradable
